Tech at Work

How technology affects companies and employees

Table of Contents

POINTS FOR DISCUSSION:

- How tech affects companies
- The ease of setting up a remote team
- Keeping your company and employees safe
- The benefits of technology in the workplace
- Is remote work here to stay?
- What's next in tech workspace

How tech affects companies, no matter the industry

Whether you're in education, medicine, or engineering, how you work has been vastly affected by technological advancements, including new computers, data software, and various tools people did not have access to in decades past. From the way you tackle your tasks to how you communicate with coworkers, technology has created ripples of change that have benefited companies in every industry.

How people worked without tech

- Longer time is spent on individual tasks.
- Communication was more complex and tedious.
- Managing data was done manually and involved a ton of paperwork.

How people work with tech

- New tools enable work to be done much faster and easier.
- Communicating with colleagues, no matter where they are in the world, is incredibly fast and convenient.
- Everything is digital and easier to file, manipulate, or keep track of.

The ease of setting up a remote team

01 Establish clear guidelines.

Every employee must be aware of all the rules.

02 Recruit with scrutiny.

Know which candidate is most reliable and apt for the post.

03 Invest on cloud technology.

Make everything convenient and safe.

04 Maintain team engagement.

Keep in touch through regular meetings.

05 Maximize communication.

Use the same communication platforms within the company.

Remote Work Suitability by Industry

AS OF JANUARY 2021

More and more companies realize that specific job titles and profiles can be accomplished while working from home.

Keeping your company and employees safe

THE IMPORTANCE OF CYBERSECURITY IN THE WORKPLACE

Avoid compromising the security of the platforms you use within the company by investing heavily in cybersecurity. Secure your company's data by looking into the best platforms out there that can protect against cybercriminals, hackers, and other fraudulent acts.

The Benefits of Technology in the Workplace

On Company Growth

HOW TECH HELPS COMPANIES EVOLVE AND INNOVATE

New Avenues for Progress

Technology presents new ways to engage with consumers and provide new services they may need in this age of advanced tech.

Ease of Management

Businesses are now able to improve the way they operate, from streamlining processes to handling consumer transactions.

Better Platforms for Employees

Employees have access to a vast array of tools to improve the way they work, no matter how complex a task.

On Employee Happiness

HOW TECH MAKES
ACCOMPLISHING WORK
EASY AND SATISFYING

01 Easier Ways of Working

Several platforms offer different tools and features employees can use to make each task more convenient and effective.

02 Faster Means of Communication

Interacting with colleagues and sending out a message to anyone in and out of the country takes no time at all.

03 Effective Time Management

Getting work done faster means employees can dedicate more time to life outside of work, especially for remote positions.

Is remote work here to stay?

HOW WORKING FROM HOME MIGHT BE THE WAY TO GO

Now that it's become even more evident that finishing tasks and communicating with colleagues can all be quickly done even when every employee stays at home, plenty of companies see how remote work is the better path to take. It's cost-effective, easy, and safe, so it's no wonder why some businesses are starting to make remote work the norm.

While remote work has its perks, the ability to switch off after a day's work may be even more difficult as you find that the space you spend hours working in is the same space that used to only be for rest and relaxation.

What's Next in Tech Workspace

- Increased task automation and use of artificial intelligence.
- Extra focus on high-value tasks.
- Continuous investment in cybersecurity and security technology.
- A better conscious focus on mental health.
- Greater geographic distribution and representation of the workforce.

Science and technology
revolutionize our lives,
but memory, tradition and
myth frame our response.

- Arthur Schlesinger
